Say hello to Wiser...

Wiser does the hard work, so you don't have to

The smart heating system that cares for your home, your pocket… and the planet.

Smarter living has never been more important. So we want to make it easier for you to manage your energy use.

With Wiser you've got better heating control in your hands. From keeping everyone warm when you're in, to controlling everything else when you're not, Wiser technology seamlessly turns your home into a smart and sustainable one.

No more losing sleep on heating systems that cost the earth. No more wasted energy. Just complete room-by-room control from the app.

Get a handle on energy spends with Wiser.

Better control, better efficiency
Save up to 18% on your energy use by upgrading to a smart thermostat thanks to efficient time and temperature scheduling.

Maximise savings with multi-room control
Maximise the efficiency of your current heating system by adding radiator thermostats and save 19% on your energy bill by only heating rooms when you need to.

Smarter savings with smart modes
Switch to Away Mode to turn down your heating temperature while you're away and save up to 14%.

Make the most of your data with Eco Mode
A further 2% can be saved by using Eco Mode, letting Wiser do the work to find the most economical way to run your system.

Plan ahead and stay on budget
The Wiser Home app is the first smart heating system designed to connect directly to your smart meter. The Insights+ feature gives you real-time breakdowns of your energy spend and can save you up to 7% per year.②

*Saves you up to 30% a year on your energy bills*①

ECO

Smart Modes
16% saving

Individual Room Control
19% saving

Smart Thermostat
18% saving

① Smart thermostat system percentage savings based on BEAMA and Salford university research statistics March 2021. Energy mode savings based on Schneider Electric research on Wiser user data 2021.

② Subject to in-app eligibility check.

The Wiser system

Easy to start. Easy to grow.

Start with your smart room thermostat

This wireless powerhouse gives you complete control of your heating via the Wiser Home app. You can then build a total heating ecosystem by adding more devices.

Make your radiators smarter

Pop a smart radiator thermostat on your radiators for room-by-room temperature control.

Meet the smart plug

Monitor, control and schedule electrical appliances around your home.

Underfloor heating controller

Enabling mixed heating systems, the controller creates and controls zones of wet underfloor heating around your home.

Switch on to better heating

Control infrared radiators, electrical radiators, electrical underfloor heating or towel rails and plinth heaters with the electrical heat switch.

Your Wiser Home app

With the Wiser Home app you are more in charge than ever. We've evolved the app to give you even more access, insights and control over your Wiser heated home.

Smart Modes

Smart Modes including Eco Mode and Away Mode help you maximise energy and money savings.

Moments

Group your devices together to create customised moments. Set night lights to come on and reduce the temperature at the touch of a button.

Insights

The insights feature on the app will help you understand your heating system and Wisers' energy saving performance.

Insights+

Get an in-home display that connects to your smart meter and you can forecast your future energy use and budget.②

Smart Home

Adjust your thermostat or activate your Wiser plug with a simple voice command to your Google Assistant or Amazon Alexa.

"Alexa, turn on the lamp in the lounge"

② Your smart meter must be compatible, carry out an eligibility check on your Wiser Home app

The Wiser Home

When your home is your castle, we've made it simple to see what a Wiser home can do for you, room-by-room.

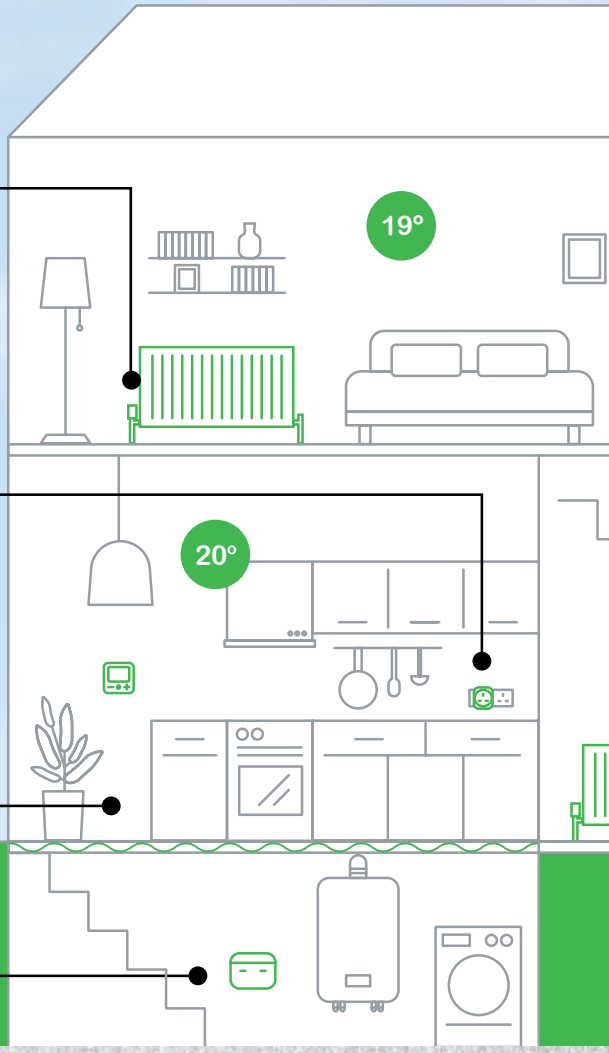

The Wiser Cloud
The Wiser Cloud offers enhanced security and stability.

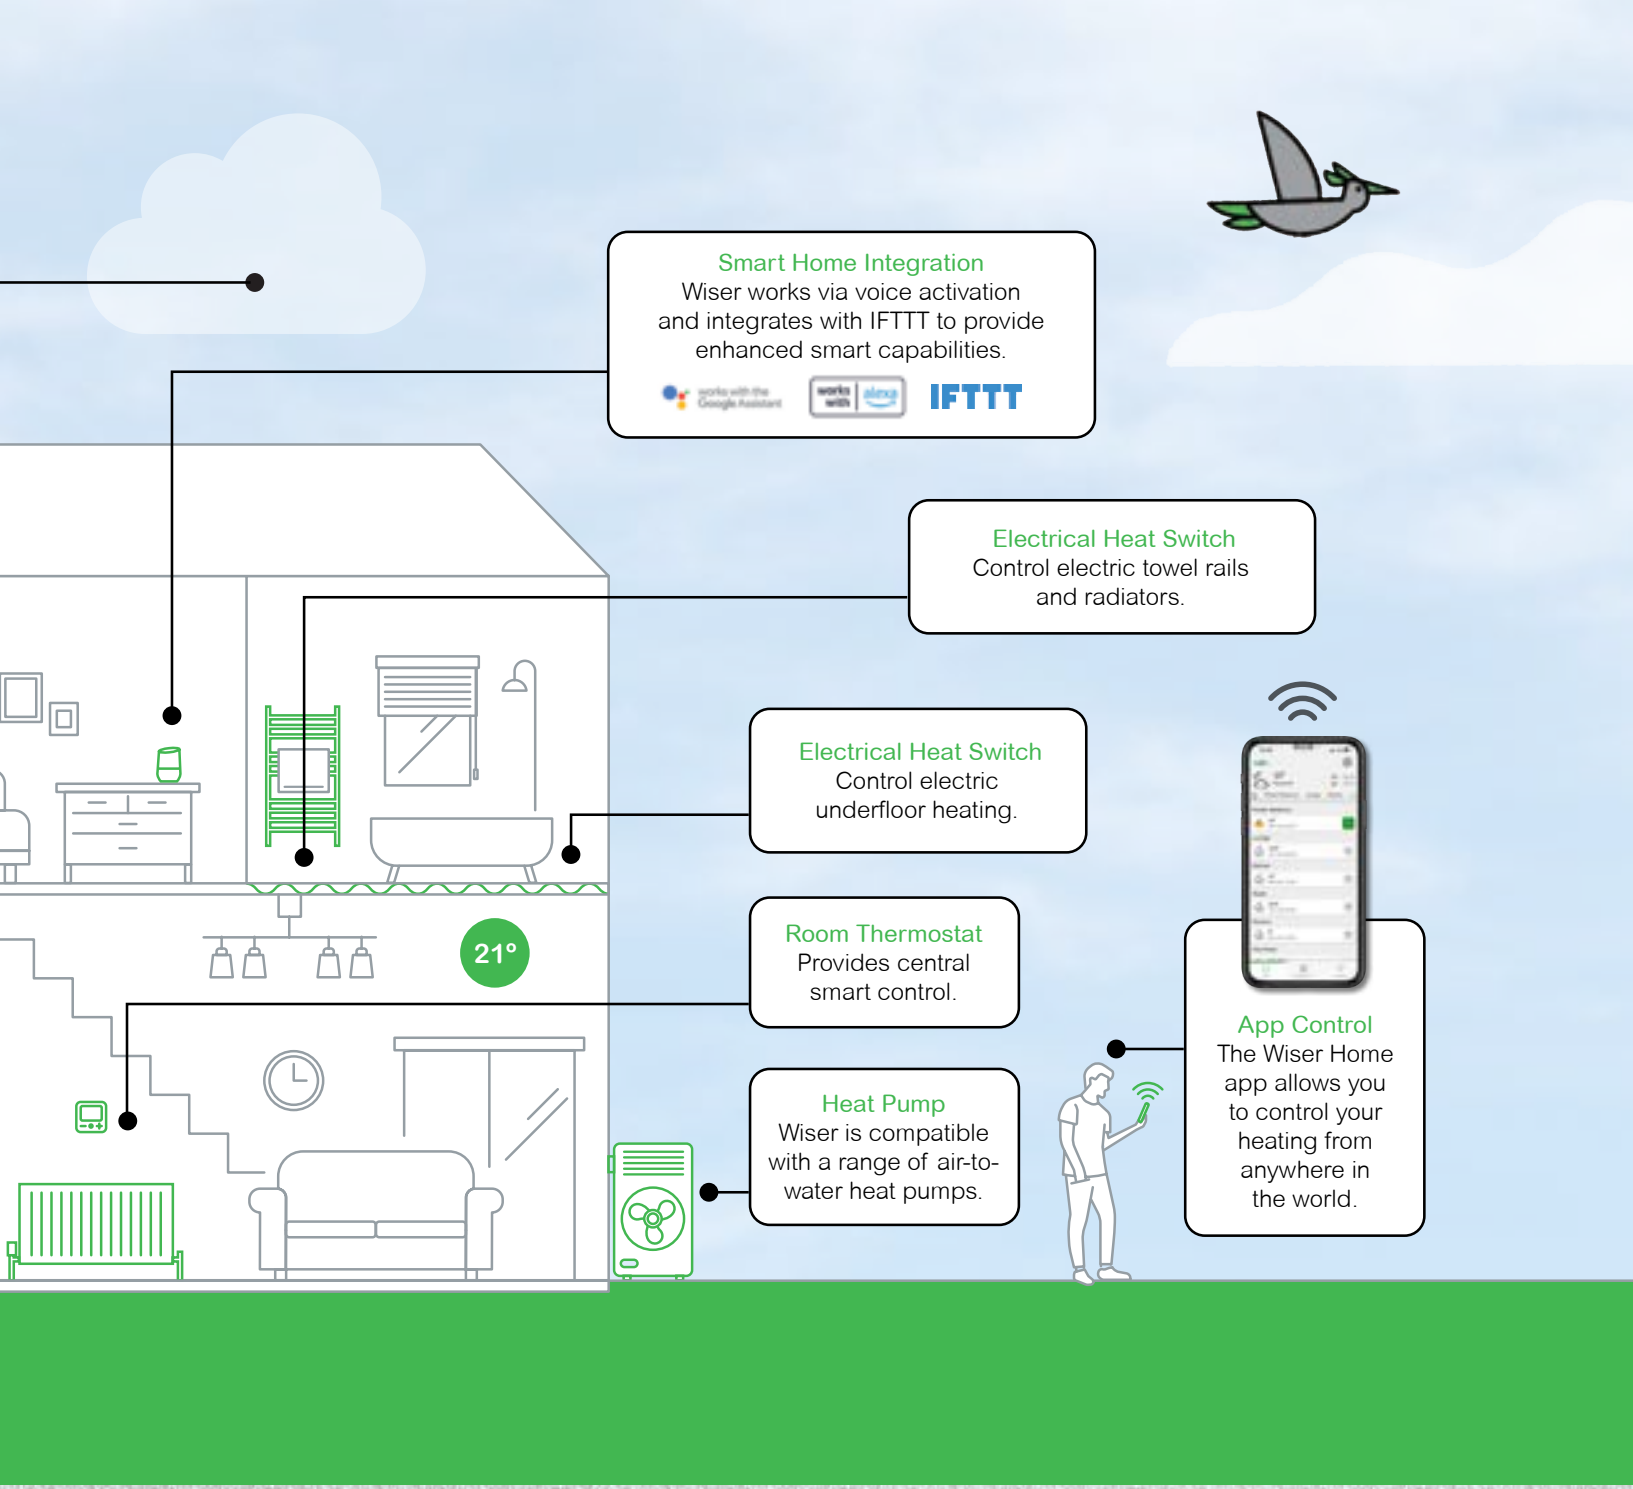

Radiator Thermostat
Set independent time and temperature schedules in each room.

Smart Plug
Control electrical appliances and boost signal strength.

Wiser Hub^{R}
The Hub^{R} is the brains of the operation and connects to the boiler. There is a Hub^{R} included in every thermostat kit.

NEW Underfloor Heating Controller
Now you can control water based underfloor heating.

Smart Home Integration
Wiser works via voice activation and integrates with IFTTT to provide enhanced smart capabilities.
IFTTT
Electrical Heat Switch
Control electric towel rails and radiators.
Electrical Heat Switch
Control electric underfloor heating.
21°
Room Thermostat
Provides central smart control.
Heat Pump
Wiser is compatible with a range of air-to-water heat pumps.
App Control
The Wiser Home app allows you to control your heating from anywhere in the world.

The smarter choice
- but don't just take our word for it
