

The easier, smarter, heating system

Wiser

Multi-zone heating made easy

wiser.draytoncontrols.co.uk

Life Is On

Drayton
by Schneider Electric

smart meet Wiser

Introducing Wiser, the beautifully simple multi-zone heating system from Drayton. Easy to install from app to thermostat, Wiser is the altogether better, smarter, easier way to personalise home heating.

Over 70 years of engineering expertise and manufacturing proficiency has culminated in the creation of Wiser, the heating system that makes smart technology simple and affordable.

Your Wiser system

Wiser combines smart features with simplicity to bring you an altogether easier, wiser, better solution.

Wiser makes home personalisation affordable by allowing you to start with a smart room thermostat and build a full multi-zone system over time by adding radiator thermostats.

- Smart heating & hot water control
- Easy zoning with radiator thermostats
- Quick & easy installation
- Wireless thermostats
- An affordable & buildable system
- Schedule your electrical appliances by adding Wiser Plugs
- Boiler Plus compliant

What makes Wiser wiser?

Simplicity
Standard wallplate,
wireless devices

Flexibility
Up to 3 channels, 16 rooms,
32 devices

Multi-zoning
Build the perfect system by
adding radiator thermostats

App Control
Simple app with boost
& Away Mode

Eco Mode
Combines weather
compensation & optimum
stop for maximum savings

Comfort Mode
Uses optimum start for
maximum comfort

Heat Report
View and compare temperatures
across single or multiple rooms

Geofencing
Enhanced control with
geofencing through IFTTT

OpenTherm®
Digital boiler interface enabling
more efficient control

Set different
temperatures in
selected rooms

Wiser Heat Hub^R

The Wiser Heat Hub^R is the brains of the system. It goes beyond smart, offering up to 3 channels, 16 zones and 32 devices in a system. All you have to do is clip it onto an industry standard wallplate and you can benefit from the full range of features.

Features

- Create up to 16 heating zones (individual rooms) and hot water
- Add up to 4 radiator thermostats and 1 room thermostat per zone up to a maximum of 32 devices in a system
- OpenTherm boiler interface support
- Eco Mode incorporating weather compensation and optimum stop
- Comfort Mode equivalent to optimum start
- Firmware updates via the cloud
- Operates as a Wi-Fi access point allowing local app access even without internet connectivity
- Industry standard Wi-Fi and 2.4GHz RF mesh technology

Wiser Room Thermostat

No wires, no installation, no mess. The wireless room thermostat is battery powered and, thanks to the handy table stand and wall clip, can be positioned anywhere. The large multi-colour screen and capacitive touch buttons provide the perfect combination of usability and iconic design.

Simplicity is at the heart of Wiser. From clean, contemporary design to ease of install and ease of use via the intuitive app, Wiser encompasses everything a smart device should.

Wiser Radiator Thermostat

Radiator thermostats enable your Wiser system to enter a whole new level of smart. With a connection to the boiler, via the Heat Hub[®], they allow you to control the on/off times and temperatures of individual rooms using the intuitive app.

Building on the iconic design of the Drayton TRV4, the Wiser Radiator Thermostat maintains the simplistic style and builds on years of success as a leading TRV manufacturer with a host of additional features.

Unique twist top design to boost by 2°C from the device. Or just ask your voice assistant.

reddot design award
winner 2018

Features

- Mounts on over 90% of existing radiator valves
- Battery operated
- Revolutionary twist top with spring back for boosting at the thermostat
- Award winning design for outstanding innovation and functionality
- Works with Amazon Alexa and the Google Assistant
- Programming & settings via the app
- ErP rating 5%
- Multiple sensors for high accuracy
- Automatic valve protection runs
- Open window detection
- Device lock

Simply unscrew the existing radiator valve heads and screw on your new Wiser Radiator Thermostats. Each pack includes the adaptors you will need for most installations.

The Wiser Heat app

The app has been designed to make your life simple. Step-by-step commissioning instructions guide you through the whole process in just a few minutes.

The user interface has been designed to be intuitive so your customer will have no problem taking control of their heating. Set up can be done within seconds and programming couldn't be easier. Boost, set point and room selections can all be accessed from the home screen.

Download our app in the App Store – search Wiser Heat

Wiser Smart Home

Alexa, set the living room to 20 degrees

It really is that simple to control the Wiser system. Wiser works with voice assistants such as Amazon Alexa and the Google Assistant to make your life easier. You don't even need to touch the app to operate it, just ask the assistant to customise the temperature in each room.

The clever features of your Wiser system can be enhanced further with geofencing via IFTTT integration. The IFTTT platform can link your Wiser system with other apps allowing you to set up commands such as...

“When the last family member leaves the house activate Away Mode”

NEW

Wiser Plug

Introducing the Wiser Plug, the newest addition to the Wiser family.

Enabling you to set schedules for home appliances from the Wiser Heat app, the Wiser Plug can be controlled from your phone or by using voice activation with the Google Assistant and Amazon Alexa.

As well as being able to control your home appliances remotely, the Wiser Plug also has a built-in range extender to enable connectivity to devices further away from the Heat Hub[®].

Features

- Quick commissioning via the Wiser Heat app
- Set schedules via the app, 7 days a week, 8 events per day
- Requires Wiser Heat Hub
- Works with Amazon Alexa, the Google Assistant and IFTTT
- Syncs with Wiser's Away Mode
- Add up to 10 plugs per system

The Wiser options

To make it simple we have bundled together the Wiser products into five core packs with the option to bolt on further devices to suit the property.

Product Pack	Pack Contents	Description	Part Number
Wiser Thermostat Kit 1 	1 x Room thermostat 1 x Thermostat stand 1 x Thermostat wall bracket 2 x AA batteries 1 x 1 channel Heat Hub [®] 1 x OpenTherm module 1 x Wallplate	One channel thermostat pack ideal for combi-boilers. Enables you to control heating via the Wiser Heat app.	WT714R9K0902
Wiser Thermostat Kit 2 	1 x Room thermostat 1 x Thermostat wall bracket 1 x Thermostat stand 2 x AA batteries 1 x 2 channel Heat Hub [®] 1 x OpenTherm module 1 x Wallplate	Two channel thermostat pack ideal for conventional systems. Enables you to control heating and hot water via the Wiser Heat app. Wire in existing cylinder thermostat for hot water control.	WT724R9K0902
Wiser Thermostat Kit 3 	2 x Room thermostats 2 x Thermostat wall brackets 2 x Thermostat stands 4 x AA batteries 1 x 3 channel Heat Hub [®] 1 x OpenTherm module 1 x Wallplate	Three channel thermostat pack ideal for properties with two heating zones. Enables you to control heating and hot water via the Wiser Heat app. Wire in existing cylinder thermostat for hot water control.	WT734R9K0902
Wiser Multi-zone Kit 1 	2 x Radiator thermostats 6x AA batteries 1 x Room thermostat 1 x Thermostat stand 1 x Thermostat wall bracket 1 x 1 channel Heat Hub [®] 1 x OpenTherm module 1 x Wallplate 2 x M30x1.5mm ring nuts 2 x Drayton valve adapters 2 x Danfoss RA valve adapters	One channel thermostat system with two radiator thermostats to start zoning your system. Suitable for combination boilers. Control the room thermostat and radiator thermostats via the Wiser Heat app. Add more radiator thermostats to create more independent zones.	WV714R9K0902
Wiser Multi-zone Kit 2 	2 x Radiator thermostats 6x AA batteries 1 x Room thermostat 1 x Thermostat stand 1 x Thermostat wall bracket 1 x 2 channel Heat Hub [®] 1 x OpenTherm module 1 x Wallplate 2 x M30x1.5mm ring nuts 2 x Drayton valve adapters 2 x Danfoss RA valve adapters	Two channel thermostat system with two radiator thermostats to start zoning your system. Suitable for conventional boilers. Set schedules for the room thermostat, radiator thermostats and hot water via the Wiser Heat app. Add more radiator thermostats to create more independent zones.	WV724R9K0902
Radiator Thermostat 	1 x Radiator thermostat 2 x AA batteries 1 x M30x1.5mm ring nut 1 x Drayton valve adapter 1 x Danfoss RA valve adapter	Add additional single radiator thermostats to any of the above packs to create more zones and benefit from maximum comfort and energy saving.	WV704R0A0902
Room Thermostat 	1 x Room thermostat 1 x Thermostat wall bracket 2 x AA batteries 1 x Thermostat stand	Additional room thermostat - add to rooms with radiator thermostats as a convenient way to view and change the room temperature. Works with all Wiser kits.	WN704R0S0902
Wiser Plug 	1 x Smart plug	Add up to 10 smart plugs to any system to enable remote scheduling of your home electrical appliances via the app.	WB704H1A0902

Get Wiser

We've compiled some key questions and information sources so you can find out everything you need to know about Wiser.

Is Wiser compatible with all boilers?

Wiser will work with all common boiler types. It won't operate on gravity fed systems or boilers requiring manufacturer specific controls to operate.

Is Wiser future proof?

Yes. Wiser makes use of industry leading technology to ensure the best experience now and for future products. Wiser works with Amazon Alexa & the Google Assistant, enables geofencing through IFTTT and we're working on other services to further integrate Wiser within the Smart Home

What happens if I have no internet connection?

Wiser can be installed without any internet connection. The homeowner can download the app and connect at any point after installation. If connection is lost after installation the homeowner will still be able to use the app when at home.

Do the Radiator Thermostats call for heat?

Yes, with a connection to the boiler via the Heat Hub^R, they enable time and temperature control of individual rooms.

Does Wiser have weather compensation?

Wiser has more than weather compensation, it has Eco Mode. Eco Mode establishes the thermal profile of a home and by using weather compensation combined with optimal stop, maximises energy saving and enhances comfort.

How many rooms does Wiser support?

Wiser supports up to 16 rooms of heating (plus hot water in supporting Heat Hubs) across a wide range of configurations to suit any home.

Do the radiator thermostats come with valve bodies?

No, but in most situations these will already be in place and the radiator thermostats can be retrofitted. However, if older style valves are in place, adapters would need to be purchased and you can find more information on wiser.draytoncontrols.co.uk

For new installations, valve bodies will need to be purchased from your merchant.

Wiser Approved Installers

Register for our 9° installer network to begin your Wiser Approved journey and benefit from a host of exclusive offers.

We're giving professional installers the opportunity to become Wiser Approved.

Complete the training face to face at one of the dates on our Wiser tour, or complete the training in your own time via our online training module - 9° Know How.

You'll get access to our discounted shop for limited special offers and priority technical support, along with sales tools and exclusive website leads to help you grow your business.

Register for free and join the Wiser revolution www.9network.co.uk

Security Statement

Schneider Electric established the Global Security Lab as an independent entity to ensure vigilance against the latest threats and enable defence against our systems from a cyber-attack. Our advanced security systems, which operate between Wiser in-home products, App and cloud services, use the same encryption technology as banks to protect end-user data. The Wiser Heat App and all software are continually updated to stay ahead of any potential threats to security. Schneider Electric doesn't use end-users' personal data for any purpose other than to improve the service and support provided and the data is not shared with any third parties.
